produced by an en-feebled, vitiated state of the blood, where a that fluid becomes ir competent to sustain the vital forces in their leaves the system to fall into disorder and decay. The scrofulor-contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy the decaying vices and above all, by thabits, the depressing vices, and, above all, in the venereal infection. Whatever be its origin it is hereditary in the constitution, descending it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the red of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names according to the organs it attacks. In the lungs, Scrofala produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you.

Ayer's Sarsaparilla
is compounded from the most effectual antidotes that medical science has discovered for
this afflicting distemper, and for the one of the
disorders it entails. That it is far superior to
any other remedy yet devised, is known by all
who have given it a trial. That it does combine virtues truly extraordinary in their effect
upon this class of complaints, is indisputably
proven by the great multitude of publicly
known and remarkable cures it has made of
the following diseases: King's Evil or
Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt
Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White
Swellings, Debility, Dropsy, Neuralgia,
Dyspepsia or Indigestion, Syphilis and
Syphilitic Infections, Mercurial Diseases,
Female Weaknesses, and, indeed, the whole Syphilitic Infections, Mercurial Diseases Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does creatly shorten, the average devarion of human greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of ATER'S SARSAPARILLA, although it is com ATER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Surziparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Surusparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. It virtues have been proven by abundant trial, and the remains no question of its surpassing excellent for the cure of the afflicting diseases it is in tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
